TrueSurf

TRUEGAGE surface metrology

*Powerful software for **any** surface metrology gage*

Upgrade your surface texture gage...

Most surface texture gages produced today work quite well, however, many lack the graphics or all of the computing power that you truly need. TrueSurf can make any gage capable of computing all of the latest ANSI and ISO parameters. Enhance the capabilities of your instruments with TrueSurf software to visualize the profile data. You have the hardware that you need, now get the software that you really want.
